Subject: Well done

We are a family returning to the UK from Israel. We were recommended to A. Univers Transit Ltd. for the shipment of our belongings from Raanana to London. We have been really pleased with the service. We had excellent support and advice from Avi before the move. The packing and loading was scheduled over two days. On both days the team arrived promptly and started work straight away. They were polite and attentive. After the first day most of the items were packed and they kindly left us everything we needed to stay in our house that night. On the second day everything was completed on time. We were absolutely satisfied with the service and would highly recommend the company.
